📍 Janakpurdham, Nepal

## SUMMARY

Full Stack Developer skilled in JavaScript and TypeScript, building complete, production-ready web applications independently — from architecture and backend APIs to polished front-end interfaces. Experienced with React, Next.js, and Node.js, with hands-on expertise deploying and hosting on Vercel, Render, and self-managed VPS infrastructure. Currently completing a Bachelor's degree while actively shipping real-world products.

## TECHNICAL SKILLS

|                      |                             |
|----------------------|-----------------------------|
| Languages            | JavaScript, TypeScript      |
| Frameworks           | React, Next.js, Node.js     |
| Database             | MongoDB Atlas               |
| Deployment & Hosting | Vercel, Render, VPS Hosting |

## PROJECTS

**Hamro Exam** hamroexam.com

Tech Stack: Next.js

- Built a full-scale entrance exam preparation platform delivering MCQ-based practice tests, from concept to production deployment.
- Designed and developed the complete application independently — front-end, back-end, database, and hosting.
- Currently live and in use, demonstrating end-to-end ownership of a production-ready product.

## EXPERIENCE

**Independent Full Stack Developer** Self-Employed

Freelance / Personal Projects

- Independently designed, developed, and deployed full-phase, production-ready web applications from scratch.
- Handled complete project lifecycle: requirements, UI/UX, front-end and back-end development, database design, testing, and deployment.
- Managed hosting and deployment infrastructure across Vercel, Render, and VPS environments.

## EDUCATION

**Bachelor's Degree — Final Year (8th Semester)** Expected 2026

RRM Campus, Tribhuvan University (TU) — Janakpurdham, Nepal
